No Passengers on Board. Later reports show that there were no passengers on the motor and that only the crew, consisting of three men, went down in the wreek. The bridge that collaped was a frait trostle structure and was built by the A. B. and C. company for the traffic of its road. It was built on an in-cline, one end higher than the other. The span that crossed the crock was about 175 feet long and the train was just about in the center of this span when the structure opened up as though it were made of cardboard and allowed the train with its hu-man freight to plunge to the ravine below.

ANTI-BRITISH ALLIANCE FORMED.

Indications That the Action of Emperor William Toward the Boor Republic Was a Thoroughly Weighed Affair—Demands of the Boers Which Great Britain Will Not Crant Without a Struggle-Back

down in Utterances of the German Press LONDON, Jan. 10.-A special disputch from Berlin Thursday afternoon says that Russia's co-operation with Germany in the Transvall matter has been assured and that France will act with Russia. This. apparently, tends to confirm the report of an anti-British alliance, and that the ac tion of Emperor William toward the Boer

republic was a thoroughly weighed step. A telegram has been received from Pro toria, capital of the Transvani, saying that the Boers demanded the surrender of all British rights and suggrainty over the Transvaal and the pre-emption of Delagon bay and the canceling of the charter of the British South Africa comoney. It is further stated that the Boers have arrested, on the charge of treason sight leaders of the present moves among Ultianders of Johannesburg.

The opposition to the demands of the Boers, however, will mainly rest on the fact that it is generally admitted that they are instigated, on the whole, by Emror William and that they form part of a studied opposition upon part to the colonial policy of Great Britain in Africa.

Of Little Importance

The Berlin and Vienna newspapers regard the warlike preparations of Great Britain as being of little importance, however, and as being more in the entered taking, so far as Germany is concerned, but the periodicals take a more serious riew of the proposed strengthening of the British forces in South Africa, which step is regarded as having in view a possible is regarded as having in view a po-aggressive action toward the South

Action Against the Joint Truffic Associatio

New York, Jan 10-United States D a trict Attorney McFarlane filed a bill of complaint in the United States circuit panies forming the Joint Traffic association. Mr. McFarlane also gave notice that on Jan 17 he would move for an injunction restraining the association from operating under its agreement. In the bill of complaint it is charged that the agreement between the companies is in-tended to combine or post all competition in traffic within its scope, and that the agreement covers all through traffic of the great trunk lines, which comprises a very large part of the interstate railroad traffic of the United States.

This agreement, it is further alleged, is unlawful in that it establishes not only a traffic pool but likewise a pool of earnings mmerce act, and that it is a contractor combination in restraint of interstate trade and commerce, and unlawful under the anti-trust act of July 2, 1890, known as the Sherman anti-trust act. The bill of complaint asks as relief to have the amuracts between the milironds declared until and void and the parties to it perpetually enjoined from acting under the agreement. The complaint also asks for a temperary injunction.
